SANITATION AND WATER FOR ALL

Sanitation and Water for All (SWA) is a global partnership of governments, donors, civil society organizations and other development partners working together to coordinate high-level action, improve accountability and use scarce resources more effectively.

Over 90 partners are committed to achieving universal access to clean water and adequate sanitation. Developing country governments are driving SWA. They demonstrate dedicated political will and leadership in implementing national plans to deliver sanitation and water to their populations.

Donors and development partners support these efforts, while civil society organizations hold powerful institutions accountable for their commitments and action.

Features

- Bilingual (English/French), with language customization option to display the user interface in additional languages.
- Event Management
- Multilevel menus
- Document Library
- Flickr Integration
- Google doc integration

Benefits

- Admin can add latest news and events.
- Pages and Menus are manageable from the administrator panel.
- Country profile are manageable from google doc after publishing.
