

# Sudan Mobile Application and Profiles

[P0524]

Monitoring progress towards the Sustainable Development Goals

**Area Profiles**

**Mobile App**

## Features

- Data sets available on mobile phones
- Different sections aligned with SDGs
- Infographics provide visual data interpretation
- Intuitive and interactive interface for easy browsing
- Easy download tool for sharing information in reports

## Benefits

- Socio-economic data available on the go and offline
- Ability to share data and profiles on multiple social media platforms
- User-friendly interface with no learning curve for better outreach
- Real time module integrated into the data dissemination package
- Can be used on multiple mobile operating systems, including Android and IOS

The SudanInfo Mobile application makes socio-economic data available on the go to everyone.

As mobile devices become the default tool to access information in many countries of the developing world, mobile apps provide a growing opportunity to make visualizations and data available in the most remote areas. With the SudanInfo application, Sudan is equipped with actionable data profiles in a powerful tool for enhanced advocacy and easy data dissemination.

CSF has also supported the Sudanese Central Bureau of Statistics (CBS) with an online data management tool, allowing for real-time updates of the data on the SDG dashboard and mobile application. This allows greater freedom for data users to take the mobile app into areas not equipped with internet access, while being able to update the app when internet is accessible.

## Facts

Stakeholders	UNICEF, Sudanese CBS
Geographic Area	Sudan
Time Period	2017
Topics	SDGs, Education, Nutrition Health, Environment, Food consumption, economy
Tools	Mobile application, Real time data management tool, area profiles
Services	Tools customization; training
Link	<a href="#">Google Play</a> , <a href="#">Apple Store</a>
Reference	Dina Ali, UNICEF Sudan
Project Administrator	Samip Gupta <a href="mailto:sgupta@dataforall.org">sgupta@dataforall.org</a>

## Budget

USD 0.035 million
