

UNDP Burundi Legal Portal P1430

Open Document Portal to Support Legal Scholars in Burundi

Community Systems Foundation has developed the first legal portal in Burundi to support legal scholars, as well as knowledge sharing in the country.

Following an in-country requirements gathering session with UNDP Burundi and government stakeholder, Community Systems Foundation developed the Burundi Legal Portal to support the government's effort in providing a portal with legislation available to everyone in the country.

With various laws, acts, theoretical papers, treaties, conventions and documents, the portal has become a center for documentation (Centre d'Etudes et de documentation Juridique). CSF also supported the government in the uploading of the documents to the portal.

To ensure the portal is sustainable, CSF training specialists conducted a week-long training mission Gitega, Burundi to training government counterparts.

Features

- Project scoping mission to understand the functional and technical requirements of the project
- Developed online legal portal and uploading various laws, act, conventions, treaties, etc.

Benefits

- The first legal portal in Burundi to access all legal documents
- Ongoing support to the country through support and maintenance
