27 December 2018

**Subject: Communication on Engagement**

António Guterres  
Secretary-General  
United Nations  
New York, NY 10017 USA

Dear Mr. Secretary General,

We are pleased to confirm that Community Systems Foundation, a nonprofit research and education organization based in the USA, remains committed to the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact in advancing these principles and will make a clear statement of this commitment to our stakeholders and the general public.

Thank you in advance for your support.

Community Systems Foundation pledges to continue to participate in and engage with the UN Global Compact in the following ways:

- Propose Partnership Projects on Corporate Sustainability
- Support special initiatives, including: climate change, water, human rights, transparency and anti-corruption, responsible investment, zones of conflict, and management education.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication of Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact.

We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE Policy.

Community Systems Foundation holds special consultative status with UN Economic and Social Commission. In this position, we participate regularly in UN fora and have submitted written statement to the Fifty-Sixth Session of the Commission for Social Development ([E/CN.5/2018/NGO/11](http://E/CN.5/2018/NGO/11)). Our work with the UN system on UN INFO is central to ongoing reform processes – improving collaboration, accountability and transparency in UN work at country, regional and global levels.

In addition, Community Systems Foundation is an active member of the Global Partnership on Sustainable Development Data, through the technical advisory group (TAG) and participation in national, regional and international events.

Community Systems Foundation encourages all partners to engage in the UN Global Compact as members.

We submit for record a summary of actions taken from 2016-2018, relevant to the UN Global Compact.

Sincerely yours,

Kris S. Oswalt  
President
