The online Grants Management System (GMS), is an interactive tool that provides easy access to information from the global grant-making mechanisms - UN Women’s Fund for Gender Equality and the UN Trust Fund to End Violence against Women.

The Fund for Gender Equality is UN Women’s grant-making mechanism dedicated exclusively to the economic and political empowerment of women. The fund selects grantee partners through a demand driven bi-annual call for proposals and since launching in 2009 has delivered US\$56.5 million to 96 programmes in 72 countries.

The UN Trust Fund to End Violence against Women, an inter-agency mechanism managed by UN Women on behalf of the UN system, supports innovative and pioneering programmes aimed at preventing and responding to all forms of violence against women and girls. Since 1996, the UN Trust Fund has awarded US\$ 116 million in grants to 426 initiatives in 136 countries.
